

Specialty-specific References for DIOs: Program Director Qualifications

ACGME

Common Program Requirements are in bold

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
Allergy and Immunology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; <small>(Core)</small></p> <p>II.A.3.b) current certification in the specialty by the American Board of Allergy and Immunology, or specialty qualifications that are acceptable to the Review Committee; and, <small>(Core)</small></p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. <small>(Core)</small></p> <p>II.A.3.c).(1) The program director must have a valid unrestricted license to practice medicine in the jurisdiction where the program’s institutional sponsor is located. <small>(Detail)</small></p> <p>II.A.3.d) at least three years’ participation as a faculty member in an ACGME-accredited allergy and immunology program or qualifications acceptable to the Review Committee; and, <small>(Detail)</small></p> <p>II.A.3.e) leadership qualities and sufficient time and effort devoted to the program to provide day-to-day continuity of leadership and to fulfill the responsibilities of meeting the educational goals of the program. <small>(Detail)</small></p>
Anesthesiology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; <small>(Core)</small></p> <p>II.A.3.b) current certification in the specialty by the American Board of Anesthesiology, the American Osteopathic Board of Anesthesiology (AOBA), or specialty qualifications that are acceptable to the Review Committee; and, <small>(Core)</small></p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. <small>(Core)</small></p> <p>II.A.3.d) faculty experience, leadership, organizational, and administrative qualifications; and, <small>(Core)</small></p> <p>II.A.3.e) demonstrated ongoing academic achievements in anesthesiology, including publications, the development of educational programs, or the conduct of research. <small>(Core)</small></p>
Adult Cardiothoracic Anesthesiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; <small>(Core)</small></p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Anesthesiology, or</p>

	<p>subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core) II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core) II.A.2.d) current certification in anesthesiology by the American Board of Anesthesiology; II.A.2.e) current appointment as a member of the anesthesiology faculty; ^(Core) II.A.2.f) completion of a cardiothoracic anesthesiology fellowship, or at least three years of participation as a program director or faculty member in a clinical cardiothoracic anesthesiology fellowship, and certification in advanced peri-operative transesophageal echocardiography (TEE) by the National Board of Echocardiography (NBE); ^(Core) II.A.2.g) at least three years of post-fellowship experience in clinical cardiothoracic anesthesiology; and, ^(Core) II.A.2.h) demonstrated ongoing academic achievements appropriate to the subspecialty, including publications, the development of educational programs, or the conduct of research. ^(Core)</p>
<p>Anesthesiology Critical Care Medicine</p>	<p>II.A.2. Qualifications of the program director must include: II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core) II.A.2.b) current certification in the subspecialty by the American Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core) II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core) II.A.2.c).(1) The program director must have privileges to practice critical care medicine and procedures relevant to the practice of critical care medicine. ^(Core) II.A.2.d) current appointment as a faculty member in the Department of Anesthesiology; ^(Core) II.A.2.e) demonstrated ongoing academic achievements with appropriate dissemination, including publications in peer-reviewed journals, the development of educational programs, or the conduct of research; and, ^(Core) II.A.2.f) post-residency or fellowship experience in the care of critically-ill patients. ^(Core)</p>
<p>Obstetric Anesthesiology</p>	<p>II.A.2. Qualifications of the program director must include: II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core) II.A.2.b) current certification in the subspecialty by the American Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core) II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.2.d) current certification in Anesthesiology by the American Board of Anesthesiology; ^(Core)</p> <p>II.A.2.e) completion of an obstetric anesthesiology fellowship, or at least three years’ participation in a clinical obstetric anesthesiology fellowship as a faculty member; ^(Core)</p> <p>II.A.2.f) at least three years of post-residency experience in clinical obstetric anesthesiology; ^(Detail)</p> <p>II.A.2.g) current appointment as a member of the anesthesiology faculty; and, ^(Core)</p> <p>II.A.2.h) demonstrated ongoing academic achievements appropriate to the subspecialty, including at least one of the following: publications, the development of educational programs, or the conduct of research. ^(Core)</p>
Pediatric Anesthesiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p> <p>II.A.2.d) post-fellowship experience in pediatric anesthesiology; ^(Detail)</p> <p>II.A.2.e) current appointment as a member of the anesthesiology faculty at the primary clinical site; and, ^(Core)</p> <p>II.A.2.f) demonstrated ongoing academic achievements appropriate to pediatric anesthesiology, including publications, the development of educational programs, or the conduct of research. ^(Core)</p>
Regional Anesthesiology and Acute Pain Medicine	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Anesthesiology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Colon and Rectal Surgery	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Colon and Rectal Surgery (ABCRS), or specialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.c).(1) This must include membership on the medical staff of either the sponsoring institution or a participating site. ^(Core)</p> <p>II.A.3.d) at least three years of clinical practice in colon and rectal surgery; and, ^(Core)</p> <p>II.A.3.e) at least three years of prior experience as a faculty member in either an ACGME-accredited general surgery or colon and rectal surgery program. ^(Core)</p>
Dermatology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Dermatology, or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.3.d) at least four years of experience, following residency or fellowship, in the care of dermatology patients, and at least three years as a teacher in an ACGME-accredited dermatology residency. ^(Core)</p>
Micrographic Surgery and Dermatologic Oncology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Dermatology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p> <p>II.A.2.d) completion of an ACGME-accredited procedural dermatology or micrographic surgery and dermatologic oncology fellowship, an American College of Mohs Surgery-approved fellowship, or experience as a program director of a dermatologic surgery fellowship program for at least 10 years; ^(Core)</p> <p>II.A.2.e) at least five years of patient care experience as a dermatologist and dermatologic surgeon; ^(Core)</p> <p>II.A.2.f) at least three years of experience as a teacher in graduate medical education in dermatology and dermatologic surgery; and, ^(Core)</p> <p>II.A.2.g) an ongoing clinical practice in micrographic surgery and dermatologic oncology that includes personal performance of key aspects of micrographic surgery and dermatologic oncology as the fellow observes. ^(Core)</p>
Diagnostic Radiology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Radiology (ABR), or specialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b)(1) Current certification in diagnostic radiology by the American Osteopathic Board of Radiology (AOBR) is acceptable to the Review Committee. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p> <p>II.A.3.d) at least three years’ experience as a faculty member in an ACGME-accredited program. ^(Core)</p>
Abdominal Radiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.2.d) post-residency experience in the subspecialty area, including fellowship training, or five years of experience in the subspecialty for those subspecialties in which no certification is offered; and, ^(Core)</p> <p>II.A.2.e) experience as an educator and supervisor of fellows in abdominal radiology. ^(Core)</p>
Musculoskeletal Radiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Neuroradiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.2.d) current subspecialty certification; ^(Core)</p> <p>II.A.2.e) post-residency experience in the subspecialty area, including fellowship training; and, ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	II.A.2.f) possession of the Certificate of Added Qualifications. ^(Core)
Nuclear Radiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b).(1) In lieu of subspecialty certification by the American Board of Radiology, the Review Committee only accepts current certification by the American Board of Nuclear Medicine. ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.2.d) post-residency experience in nuclear radiology, including fellowship education. ^(Core)</p>
Pediatric Radiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.2.d) post-residency experience in the subspecialty area, including fellowship training, or five years of practice experience in the subspecialty for those subspecialties in which no certification is offered. ^(Core)</p>
Vascular Interventional Radiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Radiology, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b).(1) The program director must be certified by the American Board of Radiology in Diagnostic Radiology or Radiology and have subspecialty certification (CAQ) in Vascular and Interventional Radiology from the American Board of Radiology, or possess qualifications judged to be acceptable by the RRC. ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.2.d) post-residency experience in the vascular and interventional radiology, including fellowship education. ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
Emergency Medicine	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Emergency Medicine, or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.3.d) at least three years’ experience as a core faculty member in an ACGME-accredited emergency medicine program and demonstrated experience in a leadership role; and ^(Core)</p> <p>II.A.3.e) evidence of ongoing involvement in scholarly activity, including peer-reviewed publications. ^(Core)</p>
Emergency Medical Services	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Emergency Medicine, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.2.d) at least three years’ experience as a core physician faculty member in an ACGME-accredited emergency medicine program or emergency medical services program; ^(Detail)</p> <p>II.A.2.e) continuation in his or her position for a length of time adequate to maintain continuity of leadership and program stability; and, ^(Detail)</p> <p>II.A.2.f) current clinical activity in emergency medical services. ^(Core)</p>
Pediatric Emergency Medicine	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Medical Specialties in Pediatric Emergency Medicine, or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.3.d) three years’ experience as a clinician, teacher, and administrator in pediatric emergency medicine; and, ^(Core)</p> <p>II.A.3.e) a record of ongoing involvement in scholarly activities, including peer review publications, and mentoring (i.e., guiding fellows in the acquisition of competence in the clinical, teaching, research and</p>

	advocacy skills pertinent to the discipline). (Core)
Family Medicine	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; (Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Family Medicine, or specialty qualifications that are acceptable to the Review Committee; (Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; and, (Core)</p> <p>II.A.3.d) a minimum of five years of clinical experience in family medicine, with two years as a core faculty member in an ACGME- or American Osteopathic Association (AOA)-accredited family medicine residency program. (Core)</p>
Internal Medicine	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; (Core)</p> <p>II.A.3.a).(1) which includes at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency program, and (Detail)</p> <p>II.A.3.a).(2) at least three years of graduate medical education administrative experience prior to appointment. (Detail)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Internal Medicine, or specialty qualifications that are acceptable to the Review Committee; and, (Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current Board certification in internal medicine. (Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. (Core)</p>
Adult Congenital Heart Disease	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; (Core)</p> <p>II.A.2.a).(1) The program director should have at least five years of participation as an active faculty member in an ACGME-accredited fellowship in internal medicine cardiovascular disease, pediatric cardiology, or ACHD. (Detail)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, (Core)</p> <p>II.A.2.b).(1) The Review Committee only accepts current ABIM certification in ACHD. (Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)
Advanced Heart Failure/Transplant Cardiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine cardiovascular disease fellowship or advanced heart failure and transplant cardiology fellowship. ^(Detail)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.b).(1) The Review Committee only accepts current ABIM certification in advanced heart failure and transplant cardiology. ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Cardiovascular Disease	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or cardiovascular disease fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in cardiovascular disease. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Clinical Cardiac Electrophysiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.a).(1) The program director should have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine cardiovascular disease fellowship or clinical cardiac electrophysiology fellowship. ^(Detail)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.2.b).(1) The Review Committee only accepts current ABIM certification in clinical cardiac electrophysiology. ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Critical Care Medicine	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or critical care medicine fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in critical care medicine. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Endocrinology, Diabetes and Metabolism	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or endocrinology, diabetes, and metabolism fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in endocrinology, diabetes and metabolism. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Gastroenterology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or gastroenterology fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in gastroenterology. ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)
Hematology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or hematology fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in hematology. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Hematology and Medical Oncology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency, or hematology or medical oncology fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in hematology or medical oncology. ^(Core)</p> <p>II.A.3.b).(2) If the program director does not have appropriate credentials in both subspecialties, an appropriately-credentialed and full-time Key Clinical Faculty (KCF) member must be identified as responsible for the education program in the second specific area. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Infectious Disease	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or infectious disease fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in infectious disease. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Interventional Cardiology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine cardiovascular disease fellowship or interventional cardiology fellowship. ^(Detail)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.b).(1) The Review Committee only accepts current ABIM certification in interventional cardiology. ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Medical Oncology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or medical oncology fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in medical oncology. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Nephrology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.a).(1) The program director must have at least five years of participation as an active faculty member in an ACGME-accredited internal medicine residency or nephrology fellowship. ^(Detail)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Internal Medicine (ABIM), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts current ABIM certification in nephrology. ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p> <p>II.A.3.d) five years’ experience as a reproductive endocrinology and infertility subspecialist following completion of a reproductive endocrinology and infertility fellowship; ^(Core)</p> <p>II.A.3.e) active care of patients in the subspecialty; and, ^(Core)</p> <p>II.A.3.f) demonstration of clinical and scholarly expertise in reproductive endocrinology and infertility by publication of at least three original peer-reviewed publications within the past three years, and at least two of the following annually ^(Core)</p> <p>II.A.3.f).(1) grants with leadership role (principal investigator, co-investigator, site director); ^(Detail)</p> <p>II.A.3.f).(2) presentation at regional or national scientific or faculty development meetings (primary presenter, co- presenter, co- investigator, or senior author; and, ^(Detail)</p> <p>II.A.3.f).(3) active leadership role in national organizations; reviewer or editorial board member for peer-reviewed journal. ^(Detail)</p>
Ophthalmology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Ophthalmology, or specialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p> <p>II.A.3.c).(1) The program director must be a member of the staff at the primary clinical site. ^(Core)</p> <p>II.A.3.d) at least three years of experience in the specialty following completion of his or her residency education and excluding any year(s) of fellowship education. ^(Core)</p>
Ophthalmic Plastic and Reconstructive Surgery	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Ophthalmology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p> <p>II.A.3.d) at least five years clinical experience in ophthalmic plastic and reconstructive surgery, including successful completion of ophthalmic plastic and reconstructive surgery fellowship education, and at least three years of clinical experience in ophthalmic plastic and reconstructive surgery following the fellowship; ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.3.e) a clinical practice consisting predominantly of ophthalmic plastic and reconstructive surgery; and, ^(Core)</p> <p>II.A.3.f) engagement in ongoing research in the area of ophthalmic plastic and reconstructive surgery as demonstrated by regular publications in peer-reviewed journals and/or presentations of research material at national meetings. ^(Core)</p>
Orthopaedic Surgery	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Orthopaedic Surgery (ABOS), or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; ^(Core)</p> <p>II.A.3.d) a minimum of four years of clinical practice in the specialty post-residency/fellowship; ^(Core)</p> <p>II.A.3.e) a minimum of two years of experience as an associate program director of an ACGME-accredited orthopaedic surgery program, or three years of participation as an active faculty member in an ACGME-accredited orthopaedic surgery program; and, ^(Core)</p> <p>II.A.3.f) evidence of periodic updates of knowledge and skills to discharge the roles and responsibilities for teaching, supervision, and formal evaluation of residents. ^(Detail)</p>
Adult Reconstructive Orthopaedic Surgery	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Orthopaedic Surgery, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Foot and Ankle Orthopaedic Surgery	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Orthopaedic Surgery, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Musculoskeletal	<p>II.A.2. Qualifications of the program director must include:</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
Oncology	<p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Orthopaedic Surgery, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Orthopaedic Sports Medicine	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Orthopaedic Surgery, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Orthopaedic Trauma	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Orthopaedic Surgery, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Pediatric Orthopaedic Surgery	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Orthopaedic Surgery, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Surgery of the Spine	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Orthopaedic Surgery, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Osteopathic	<p>II.A.3. Qualifications of the program director must include:</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
Neuromusculoskeletal Medicine	<p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Osteopathic Board of Neuromusculoskeletal Medicine (AOBNMM) or its predecessor, the American Osteopathic Board of Special Proficiency in Osteopathic Manipulative Medicine (AOBSPOMM), or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.3.d) a minimum of three years of post-residency clinical practice with teaching experience in osteopathic neuromusculoskeletal medicine. ^(Core)</p>
Otolaryngology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Otolaryngology (ABOto), or specialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b).(1) The Review Committee accepts only ABOto certification. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.3.d) evidence of periodic updates of knowledge and skills to discharge the roles and responsibilities for teaching, supervision, and formal evaluation of residents. ^(Detail)</p>
Neurotology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the subspecialty by the American Board of Otolaryngology, or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The Review Committee only accepts certification in neurotology by the American Board of Otolaryngology. ^(Core)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Pediatric Otolaryngology	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Otolaryngology (ABOto), or subspecialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p>

Specialty Name	Specialty-Specific Requirements Referencing “Program Director Qualifications”
	<p>II.A.2.b).(1) The Review Committee only accepts ABOto certification in otolaryngology. ^(Core)</p> <p>II.A.2.b).(2) The program director should have also completed a pediatric otolaryngology fellowship. ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment. ^(Core)</p>
Pathology	<p>II.A.3. Qualifications of the program director must include:</p> <p>II.A.3.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.3.b) current certification in the specialty by the American Board of Pathology, or specialty qualifications that are acceptable to the Review Committee; and, ^(Core)</p> <p>II.A.3.b).(1) The program director must have current certification in anatomic and/or clinical pathology. ^(Core)</p> <p>II.A.3.b).(2) If the program director is not certified in both anatomic and clinical pathology, there should be an associate program director with certification in the complementary specialty area. ^(Detail)</p> <p>II.A.3.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.3.d) at least five years of participation as an active faculty member in an ACGME-accredited pathology residency program or a pathology residency located in Canada and accredited by the Royal College of Physicians and Surgeons of Canada (RCPSC). ^(Core)</p>
Blood Banking/Transfusion Medicine	<p>II.A.2. Qualifications of the program director must include:</p> <p>II.A.2.a) requisite specialty expertise and documented educational and administrative experience acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.b) current certification in the subspecialty by the American Board of Pathology (ABP), or subspecialty qualifications that are acceptable to the Review Committee; ^(Core)</p> <p>II.A.2.c) current medical licensure and appropriate medical staff appointment; and, ^(Core)</p> <p>II.A.2.d) at least three years of active participation as a specialist in blood banking/transfusion medicine following completion of all graduate medical education. ^(Core)</p>
Chemical Pathology	<p>II.A.2.
