

**ACGME Program Requirements for Graduate Medical Education
in Family Medicine
Summary and Impact of Focused Requirement Revisions**

Requirement(s) #: IV.A.6.a).(5)

Residents must provide care for a minimum of 1650 in-person FMP patient encounters in the ~~FMP site-~~ outpatient setting, including FMP sites, nursing home, and home visits. (Core)

1. Describe the Review Committee's rationale for this revision. **The proposed revision more clearly demonstrates the intent of the requirement. Specifically, the intent was that the minimum outpatient numeric requirement (1650) could include meaningful encounters with patients from the FMP (as a whole) in various settings (such as nursing home and home visits). As currently written, "...FMP site..." implies a location and, as is, could be read as inconsistent with the requirements that follow.**
2. How will the proposed requirement or revision improve resident/fellow education, patient safety, and/or patient care quality? **N/A**
3. How will the proposed requirement or revision impact continuity of patient care? **N/A**
4. Will the proposed requirement or revision necessitate additional institutional resources (e.g., facilities, organization of other services, addition of faculty members, financial support; volume and variety of patients), if so, how? **N/A**
5. How will the proposed revision impact other accredited programs? **N/A**
