

## ACGME Review Committee Eligibility Decisions

### Fellowship Eligibility

The ACGME Common Program Requirements (Fellowship), effective July 1, 2019, include two choices for fellowship eligibility (see III.A.1.). The table below reflects the eligibility decisions for each Review Committee. Review Committees that chose Option 1 needed to decide whether to allow exceptions to the eligibility requirements. *Note: Review Committees that do not accredit fellowships are not listed in the table.*

<b>Fellowship Eligibility</b>			
<b>Review Committee</b>	<b>Option 1 (Prerequisite education must be completed in a program with one of the following: ACGME accreditation; AOA approval; ACGME-I Advanced Specialty Accreditation; or, RCPSC or CFPC accreditation)</b>	<b>Option 2 (Prerequisite education must be completed in a program with one of the following: ACGME accreditation or AOA approval)</b>	<b>Allows Fellowship Eligibility Exception (not permitted with Option 2)</b>
Anesthesiology	X		Yes

Preventive Medicine	X		Yes
Psychiatry	X		Yes

Radiation Oncology	X		Yes
Radiology	X		Yes
Surgery	X		No
Thoracic Surgery	X		No
Urology	X		No

## Residency Eligibility

Additionally, a Review Committee may permit the eligibility exception if the specialty requires completion of a prerequisite residency program prior to admission (see Common Program Requirements (Residency), III.A.4.). Review Committees for which this is applicable are listed below with their decisions regarding whether or not to allow the exception.

<b>Resident Eligibility Exception</b>	
<b>Review Committee</b>	<b>Allows Resident Eligibility Exception</b>
Allergy and Immunology	Yes
Colon and Rectal Surgery	No
Nuclear Medicine	Yes
Preventive Medicine	Yes
