

Guide to Construction of a Block Diagram for Physical Medicine and Rehabilitation Residency Programs Review Committee for Physical Medicine and Rehabilitation

A block diagram is a representation of the rotation schedule for a resident in a given post-graduate year. It offers information on the type, location, length, and variety of rotations for that year. The block diagram shows the rotations a resident would have in a given year; it does not represent the order in which they occur. There should be only one block diagram for each year of education in the program. The block diagram should not include resident names.

- Create and upload a PDF of the program's block diagram using the information below as a guide.
- Two common models of the block diagram exist: the first is organized by month; the second divides the year into 13 four-week blocks. Rotations may span several of these time segments, particularly for subspecialty programs.
 Regardless of the model used, the block diagram must indicate how vacation time is taken. This can be done by allocating a time block to vacation, or by indicating this in a "Notes" section accompanying the block diagram.
- In constructing the block diagram, include the **participating site** at which a rotation takes place, as well as the **name of the rotation**. If the name of the rotation does not clearly indicate the nature of the rotation, then clarifying information should be provided as a footnote to the block diagram or elsewhere in the document. **The following abbreviations should be used when completing the block diagram:**

BI	Brain Injury	OBGYN*	Obstetrics and Gynecology
CON**	Consults	PAIN	Pain Medicine
EMG	Electromyography	PEDS*	Pediatrics
ELEC	Electives (experiences chosen by the residents over and above their required experiences)	PDR	Pediatric Rehabilitation
EM*	Emergency Medicine	RSCH	Research
FM*	Family Medicine	SCI	Spinal Cord Injury
GR	General Rehabilitation	SM	Sports Medicine
GER	Geriatric Rehabilitation	SURG*	Surgery
IM*	Internal Medicine	VAC	Vacation
MSK	Musculoskeletal		

^{*}For programs offering four years of education and training.

- **Group the rotations by site**. For example, list all of the rotations in Site 1 first, followed by all of the rotations in Site 2, etc. The site numbers listed in the Accreditation Data System (ADS) should be used to create the block diagram.
- For each rotation, the percentage of time a resident spends in inpatient and outpatient activities should be noted. EMGs should be noted separately and should not be counted in inpatient or outpatient time.
- The percentage of time devoted to structured research on a clinical rotation should be noted. If a block is purely
 research, it should be labeled as such, and should not be associated with a participating site.
 - If needed, additional information to aid in understanding the program's block diagram may be entered in a "Notes" section at the end of the block diagram.
- In any block diagram, there must be a formal allocation for vacation time. If not shown in the diagram, a "Notes" section must indicate how vacation time is taken.
- While there is not a standard format for the block diagram, the Review Committee for Physical Medicine and Rehabilitation recommends the use of one of the ACGME sample block diagrams from the following page.

^{**} Consults should not count as inpatient or outpatient time.

Sample 1	This is a commonly used example in which the year's rotations are divided into 12 (presumably one-month) rotations. Rotations may include structured outpatient or research time and electives.											
Block	1	2	3	4	5	6	7	8	9	10	11	12
Site	Site 1	Site 1	Site 1	Site 1		Site 2	Site 2	Site 2	Site 2	Site 3	Site 3	
Rotation Name	GR	GR	SCI	SCI	RSCH	PDR	PDR	BI	CON	GR Clinic/ EMG	MSK Clinic/ EMG	Elec/Vac
% Inpatient	100	100	100	100	0	0	0	100	0	0	0	
% EMG										25	25	
% Outpatient	0	0	0	0	0	100	100	0	0	75	75	
% Research	0	0	0	0	100	0	0	0	0	0	0	

Sample 2	In this con	n this common example, the year's rotations are divided into 13 equal (presumably four-week) rotations. Rotations may include structured											
	outpatient or research time, and electives.												
Block	1	2	3	4	5	6	7	8	9	10	11	12	13
Site	Site 1	Site 1	Site 1	Site 1		Site 2	Site 2	Site 2	Site 2	Site 3	Site 3	Site 3	
Rotation Name	GR	GR	SCI	SCI	RSCH	PDR	PDR	BI	CON	GR Clinic/ EMG	MSK Clinic/ EMG	PAIN	Elec/Vac
% Inpatient	100	100	100	100	0	0	0	100	0	0	0	0	
% EMG										25	25	25	
% Outpatient	0	0	0	0	0	100	100	0	0	75	75	75	
% Research	0	0	0	0	100	0	0	0	0	0	0	0
