Recognition of Sponsoring Institutions with Non-Standard Training Programs for J-1 Visa Sponsorship Examples of Non-Standard Training Focus Areas

Institutional Review Committee

This is a non-exhaustive list of Non-Standard Training focus areas that includes examples of non-standard training program types that were previously approved for participants in the Exchange Visitor Program with J-1 visas sponsored by the Educational Commission for Foreign Medical Graduates. In this list, each focus area has been linked to its most closely related specialty(ies) and/or subspecialty(ies).

When a Sponsoring Institution receives Initial Recognition, descriptions of active Non-Standard Training programs must be entered in the ACGME's Accreditation Data System. These focus areas and relationships to ACGME-accredited programs may be selected when entering a program description.

Sponsoring Institutions may request new Non-Standard Training focus areas and new specialty/subspecialty relationships that do not appear on this list. Email irc@acgme.org with questions.

Proposed ACGME NST Facus Area Name	Most Closely Polated Program 1	Most Closely Polated Program 2	Most Closely Polated Brogram 2	Most Closely Polated Brogram A
Proposed ACGME NST Focus Area Name Pelvic Imaging	Most Closely Related Program 1 Abdominal Radiology	Most Closely Related Program 2	Most Closely Related Program 3	Most Closely Related Program 4
